Re: Notice of Data Breach

Dear :

Ann & Robert H. Lurie Children's Hospital of Chicago ("Lurie Children's") has been investigating the nature and scope of a sophisticated cybersecurity attack that occurred earlier this year. Lurie Children's is writing to update you about the cybersecurity attack and to inform you that your information was impacted. We are providing information about the measures Lurie Children's has taken in response to this matter, and steps you can take to help protect against possible misuse of information.

What Happened

Through Lurie Children's' ongoing investigation, Lurie Children's has determined that cybercriminals accessed Lurie Children's systems between January 26 and 31, 2024. On January 31, 2024, to protect our systems and our ability to continue operations, Lurie Children's took certain electronic systems offline, including our email, phones, and electronic health record system (Epic), and Epic's patient portal (MyChart). Lurie Children's activated our standard incident response procedures, including the Hospital Incident Command Structure. Additionally, Lurie Children's retained leading cybersecurity experts and legal counsel to work with our internal teams. Lurie Children's has worked closely with law enforcement as well. No threat actor activity has been identified in Lurie Children's' environment since January 31, 2024.

Our investigation included a thorough and methodical review and analysis of impacted data on our systems. Through our ongoing investigation, Lurie Children's has determined that certain individuals' personally identifiable and/or protected health information was impacted.

You have been identified as an individual whose information was impacted in this cybersecurity attack. We are notifying you to provide information and steps you can take to help protect your information.

ADDITIONAL ACTIONS TO HELP REDUCE YOUR CHANCES OF IDENTITY THEFT

➤ PLACE A 90-DAY FRAUD ALERT ON YOUR CREDIT FILE

A Fraud Alert is a consumer statement added to your credit report that alerts creditors of possible fraudulent activity within your report as well as requests that they contact you prior to establishing any accounts in your name. An initial 90-day security alert indicates to anyone requesting your credit file that you suspect you are a victim of fraud. Once the fraud alert is added to your credit report, when you or someone else attempts to open a credit account in your name, increase the credit limit on an existing account, or obtain a new card on an existing account, the lender should take steps to verify that you have authorized the request. If the creditor cannot verify this, the request should not be satisfied. You may contact one of the credit reporting companies below for assistance.

Chester, PA 19016

➤ PLACE AN EXTENDED FRAUD ALERT ON YOUR CREDIT FILE

You may also want to consider contacting the credit reporting companies and asking them to place an extended fraud alert. If you are a victim of identity theft and have created an Identity Theft Report, you can place an extended fraud alert on your credit file. It stays in effect for 7 years. When you place an extended alert, you can get 2 free credit reports within 12 months from each of the 3 nationwide credit reporting companies, and the credit reporting companies must take your name off marketing lists for prescreened credit offers for 5 years, unless you ask them to put your name back on the list.

➤ SECURITY FREEZE ON YOUR CREDIT FILE

If you are very concerned about becoming a victim of fraud or identity theft, a security freeze might be right for you. Placing a freeze on your credit report will prevent lenders and others from accessing your credit report entirely, which will prevent them from extending credit. With a Security Freeze in place, you will be required to take special steps when you wish to apply for any type of credit. This process is completed through each of the credit reporting companies. To obtain a security freeze from all credit reporting agencies, impacted individuals must contact each credit reporting agency separately and complete their respective security freeze request process. Under federal law, you cannot be charged to place or lift a credit freeze from a credit report. To obtain a security freeze each credit reporting agency will require you to provide certain information to prove your identity, which may include your Full Name, Current and Prior Addresses, Social Security Number, Date of Birth, and/or Identification Card. Special state-by-state rules may apply regarding the availability of security freezes for minors.

➤ **ORDER YOUR FREE ANNUAL CREDIT REPORTS**

Visit <https://www.annualcreditreport.com> or call 877-322-8228.

Once you receive your credit reports, review them for discrepancies. Identify any accounts you did not open or inquiries from creditors that you did not authorize. Verify all information is correct. If you have questions or notice incorrect information, contact the credit reporting company.

➤ **MANAGE YOUR PERSONAL INFORMATION**

Take steps such as: carrying only essential documents with you; being aware of whom you are sharing your personal information with and shredding receipts, statements, and other sensitive information.

We recommend that you regularly review the explanation of benefits statement that you receive from your insurer. If you see any service that you believe you did not receive, please contact your insurer at the number on the statement. If you do not receive regular explanation of benefits statements, contact your provider and request them to send such statements following the provision of services in your name or number.

You may want to order copies of your credit reports and check for any medical bills that you do not recognize. If you find anything suspicious, call the credit reporting agency at the phone number on the report. Keep a copy of this notice for your records in case of future problems with your medical records. You may also want to request a copy of your medical records from your provider, to serve as a baseline.

➤ **USE TOOLS FROM CREDIT PROVIDERS**

Carefully review your credit reports and bank, credit card and other account statements. Be proactive and create alerts on credit cards and bank accounts to notify you of activity. If you discover unauthorized or suspicious activity on your credit report or by any other means, file an identity theft report with your local police and contact a credit reporting company.

➤ **BE ON THE LOOKOUT FOR PHISHING SCHEMES**

We recommend that you be on the lookout for suspicious emails. Specifically, be on the lookout for phishing schemes, which are attempts by criminals to steal personal information, including credit card numbers and social security numbers, over email. These attempts are often made by manipulating an email to make it look as if it came from a legitimate source, but which is actually sent by a fraudulent impersonator.

Pay particular attention to anyone asking you to click on a link or attachment, especially if the email requests sensitive information, and pay close attention to the email address (look for misspellings in the email address). It is also important that you check the recipient's email address when replying to emails to ensure it is legitimate.

➤ **POLICE REPORT**

You may also have the right to file or obtain a police report.

➤ **SUMMARY OF YOUR RIGHTS UNDER THE FAIR CREDIT REPORTING ACT:**

The Federal Trade Commission ("FTC") has created the following summary of consumer rights under the Fair Credit Reporting Act, available at https://files.consumerfinance.gov/f/201504_cfpb_summary_your-rights-under-fcra.pdf. Notably, the FTC states that: "The federal Fair Credit Reporting Act (FCRA) promotes the accuracy, fairness, and privacy of information in the files of consumer reporting agencies. ADDITIONAL ACTIONS TO HELP REDUCE YOUR CHANCES OF IDENTITY THEFT

➤ PLACE A 90-DAY FRAUD ALERT ON YOUR CREDIT FILE

A Fraud Alert is a consumer statement added to your credit report that alerts creditors of possible fraudulent activity within your report as well as requests that they contact you prior to establishing any accounts in your name. An initial 90-day security alert indicates to anyone requesting your credit file that you suspect you are a victim of fraud. Once the fraud alert is added to your credit report, when you or someone else attempts to open a credit account in your name, increase the credit limit on an existing account, or obtain a new card on an existing account, the lender should take steps to verify that you have authorized the request. If the creditor cannot verify this, the request should not be satisfied. You may contact one of the credit reporting companies below for assistance.

➤ PLACE AN EXTENDED FRAUD ALERT ON YOUR CREDIT FILE

You may also want to consider contacting the credit reporting companies and asking them to place an extended fraud alert. If you are a victim of identity theft and have created an Identity Theft Report, you can place an extended fraud alert on your credit file. It stays in effect for 7 years. When you place an extended alert, you can get 2 free credit reports within 12 months from each of the 3 nationwide credit reporting companies, and the credit reporting companies must take your name off marketing lists for prescreened credit offers for 5 years, unless you ask them to put your name back on the list.

➤ SECURITY FREEZE ON YOUR CHILD'S OR MINOR DEPENDENT'S CREDIT FILE

If you are very concerned about your child or minor dependent becoming a victim of fraud or identity theft, a security freeze might be right for you. A security freeze prohibits a credit reporting agency from releasing any information from a consumer's credit report without written authorization.

Minors, sixteen years or older, have the right to place a security freeze on a credit report, which will prohibit a consumer reporting agency from releasing information in the credit report without express authorization. A parent or guardian also has the right to place a security freeze on a minor's credit report if the child is under the age of sixteen. If the nationwide credit reporting agencies do not have a credit file on the minor, they will create one so they can freeze it. This record cannot be used for credit purposes. It is there to make sure the minor's record is frozen and protected against potential identify theft and fraud. Pursuant to federal law, you cannot be charged to place or lift a credit freeze from a credit report. Should you wish to place a security freeze on a credit file or proactively place a freeze on your child's or minor dependent's credit report, please contact the major consumer reporting agencies listed below.

To request information about the existence of a credit file in your child's or minor dependent's name, search for your child's or minor dependent's Social Security number, place a security freeze on your child's or minor dependent's credit file, place a fraud alert on your child's or minor dependent's credit report (if it exists), or request a copy of your child's or minor dependent's credit report, you may be required to provide the following information:

- A copy of your driver's license or another government issued identification card, such as a state ID card, etc.;
- Proof of address, such as a copy of a bank statement, utility bill, insurance statement, etc.;

- A copy of your child’s or minor dependent’s birth certificate;
- A copy of your child’s or minor dependent’s Social Security card;
- Your child’s or minor dependent’s full name, including middle initial and generation, such as JR, SR, II, III, etc.;
- Your child’s or minor dependent’s date of birth; and
- Your child’s or minor dependent’s addresses for the past two years.

To place a security freeze on your minor’s credit report, you must send a written request to each of the three major consumer reporting agencies: Equifax; Experian; and TransUnion by regular, certified or overnight mail at the addresses below:

If you do not receive regular explanation of benefits statements, contact your provider and request them to send such statements following the provision of services in your name or number.

You may want to order copies of your credit reports and check for any medical bills that you do not recognize. If you find anything suspicious, call the credit reporting agency at the phone number on the report. Keep a copy of this notice for your records in case of future problems with your medical records. You may also want to request a copy of your medical records from your provider, to serve as a baseline.

➤ **USE TOOLS FROM CREDIT PROVIDERS**

Carefully review your credit reports and bank, credit card and other account statements. Be proactive and create alerts on credit cards and bank accounts to notify you of activity. If you discover unauthorized or suspicious activity on your credit report or by any other means, file an identity theft report with your local police and contact a credit reporting company.

➤ **BE ON THE LOOKOUT FOR PHISHING SCHEMES**

We recommend that you be on the lookout for suspicious emails. Specifically, be on the lookout for phishing schemes, which are attempts by criminals to steal personal information, including credit card numbers and social security numbers, over email. These attempts are often made by manipulating an email to make it look as if it came from a legitimate source, but which is actually sent by a fraudulent impersonator.

Pay particular attention to anyone asking you to click on a link or attachment, especially if the email requests sensitive information, and pay close attention to the email address (look for misspellings in the email address). It is also important that you check the recipient's email address when replying to emails to ensure it is legitimate.

➤ **POLICE REPORT**

You may also have the right to file or obtain a police report.
